EDUCATION

B.Tech in Computer Science and Engineering
Indian Institute of Information Technology, Sonepat — Nov. 2022 – June 2026
CGPA: 8.26 / 10

INTERNSHIPS

Software Development Engineer Intern — May 2025 – June 2025

Bluestock Fintech (Remote)

- Developed RESTful APIs using Node.js and Express.js for Bluestock's fintech product, improving backend response time by 22%.
- Designed NoSQL schemas and managed data operations using MongoDB for transaction and user modules.
- Wrote test cases using Postman to validate API responses and automate integration testing.
- Gained practical experience with version control (Git) and CI/CD integration during agile-based development.

PROJECTS

Lung Cancer Detection

- Designed and implemented a CNN-based cancer detection model to classify images into mild, moderate, and severe categories.
- Achieved high accuracy through data preprocessing, augmentation, and model optimization techniques.
- Evaluated the model using precision, recall, and F1-score, demonstrating effective performance on medical image datasets.

Smart Attendance Manager

- Built a real-time face recognition-based Smart Attendance System using OpenCV, Python, and deep learning techniques.
- Implemented automated attendance logging with CSV storage and integrated email notifications for absentees.
- Achieved high accuracy using HOG + CNN model, optimized for reliable real-time classroom performance.

Heart Disease Prediction

- Developed a machine learning model to predict the risk of heart disease using clinical data like age, BP, and cholesterol.
- Applied Logistic Regression, Random Forest, and SVM, achieving high precision and accuracy.

- Performed preprocessing, feature selection, and evaluation using ROC-AUC, F1-score, and confusion matrix.

SKILLS

Languages	JavaScript, Python, HTML, CSS, C/C++, Java, SQL
Frameworks	React, Node.js, Express, MongoDB, Bootstrap, Streamlit, Flask
Tools	Git, Docker, Kubernetes
Soft Skills	Time Management, Teamwork, Communication, Problem Solving, Leadership, Accountability

CERTIFICATIONS

- **Python Complete Course and Flask Framework, HTML Essentials** – Udemy
  Issued: 25 Sep 2024 *Link*
- **NodeJS API for Beginners (E-commerce Project)** – Udemy
  Issued: 10 April 2025 *Link*
- **Complete Data Science, Machine Learning, DL, NLP Bootcamp** – Udemy
  Issued: 14 July 2025 *Link*

EXTRACURRICULAR ACTIVITIES

- Participated in **Smart India Hackathon 2024** – Developed an HOG and CNN based solution for Smart attendance manager.
- Active Member of **Coding Club, IIIT Sonepat** – Participated in group coding sessions, problem-solving meetups, and technical discussions.
- Volunteering with **National Service Scheme (NSS)** at IIIT Sonepat, contributing to social initiatives and campus drives.
- Active member of **Impact Club**, participating in cultural performances including dance and drama events.
- Won **1st place in Intra-College Debate Competition** on “Ethics in Artificial Intelligence”.
- Represented college and secured the first prize in **maths quiz competition** at O.P. Jindal Global University.
